_____ welcome to 2021! 2020 represents the worst trading year we have had since we started more than 30 years ago. Does 2021 reverse this trend? Doubt, but we can only hope! Buying trends seems to be split between 2 campsites – those who want quality figures and don't mind paying to find them, and those who will accept a far-lesser quality if the price is right. What can we expect to see in the New Year? A call to Bra has a set 99.9% ready to go into production but being unfortunate by a lack of expertise in the tool-making area, in the UK. The old guard of the 50's and 60's have more or less than on, and have left a person cancelled without knowledge of producing face-mold. Count has a range which we waited to see the light of day for - test shots were done and shown on the 'net'. No doubt these are somewhere in the production question, delayed by Covid. ORDER has one new set on it in the US ways, with another putting all new lined-up, it has also happily taken over the task of re-introducing the ex-Barzso ride figures. Lengthy, but very welcome. Waterloo 1815 has a new set/together also hit by production problems in the step-making scene by the Covid limits. Basevich has at least 2 new sets for this year, one is imminent, and the other is in the awaiting wings... Ex-Funds will continue their incredibly unchanged production line, with yet another set new in January, enough to get us started, let's hope there is something for everyone in the midst of all this. _____ Expedition Force 3 sets perfect for use as Robin Hood face, fit nicely with Barzso/ORDER, Max and Maskmen Robin Hood face. 58/60mm Archers. £29.00 58/60mm Monk and Peasants. £29.00 58/60mm unarmed Countrymen £29.00 Japine WWII Defence Section.
